

Unto Their Royal Majesties Anton and Luned, Their Highnesses Eckehard and Jane, Their Excellencies Celric and Ilaria, and the wonderful populace of the Barony of Storvik, do we, Lady Sonya Flicker (called Patches) and Lady Mirabella Walmesley, send our warmest and most humble greetings.

In submitting our Letter of Intent, we request the honor of being considered as the next Baronage of Storvik. We feel that Baron Celric and Baroness Ilaria have accomplished a great deal for Storvik. We hope to continue their efforts and to improve upon them if we can.

### **What We Want to Do**

To help us understand how big a commitment being a landed baronage is, we have spoken to and discussed the matter with many people including several of Storvik's previous Coronets and feel that we are prepared for the sacrifices we must make.

If chosen, we will be open to the populace; listening to them, their thoughts, their feelings, and relaying those opinions to the Crown as well as communicating the wishes of the Crown to the populace. We would like to create opportunities that allow the existing populace to explore the many experiences that Storvik has to offer. We also see a chance to improve the retention and recruitment for Storvik and build upon our strong partnerships with neighboring groups.

While we have gravitated towards the archery, art and sciences, and service communities, we fully support the fighting community. We feel that Storvik's fighter practice is a key activity for Storvik and will do whatever is in our power to make it the best experience possible.

### **Our Strengths and Skills**

One of our great strengths is experience as a Chatelaine (whether officially holding the office title or not), particularly during the plague/virtual SCA period. We have led efforts to ensure that Storvik's virtual events are well promoted. In our capacity as officers and as Storvikii, we have done our best to welcome all newcomers and we will work to continue to make Storvik as welcoming as possible in the future.

One of our proudest accomplishments is bringing the Society-wide 2017 Known World Dance and Music Symposium to Atlantia. This event had participants from the entire Known World and was very profitable. The profits helped Storvik purchase a new day shade and have helped keep her solvent through these tough plague years.

Both Patches and Mirabella have been playing with the SCA for at least 15 years, all within Storvik. We both love dancing, archery, and fiber arts. We have both been Storvik officers for a number of years with Patches as Chatelaine, Social Media officer, and Deputy Exchequer and Mirabella as Minister of Arts and Sciences. We have both supported Storvik events by running the A&S track, Newcomers' Point, and being Event Steward. We have both run large balls at Pennsic. We have also brought our love of dance to neighboring groups' activities.

We look forward working with Storvik and the Crown to facilitate a smooth transition from the plague/virtual SCA to the new normal.

Yours in service to the dream,  
Patches and Mirabella
